# WELCOME TO PAU!

*"Pau has the world's most beautiful view of the earth  
just as Naples has the most beautiful view of the sea."  
Alphonse de Lamartine*

Welcome to Pau! The city is located in the heart of the former sovereign State of Béarn, of which it was the capital from 1464. Bordered by the Gave de Pau, the city is located 100 kilometres from the Atlantic Ocean and 50 kilometres from Spain. Its location gives Pau an amazing view of the Pyrenees Mountain range. This view can be seen from the famous Boulevard des Pyrénées which extends for 1.8 kilometres from the Château de Pau to the Parc Beaumont.

# PRACTICAL INFORMATION

## HOW TO REACH PAU?

This project is supported by the Erasmus+ program. Your available budget is therefore the one defined by the program by using the [distance calculator](#).

### The closest airports

To reach Pau, there are various options:

- Airport of Pau (mainly national flights);
- Airport of Lourdes (national and international flights);
- Airports of Biarritz, Bordeaux, and Toulouse (national and international flights).

### To reach Pau from one of the other cities, you can:

- book train tickets here: <https://www.sncf-connect.com> (the official website of the French railway service);
- book a journey via Flixbus <https://www.flixbus.fr>

## REMINDER

The participants must keep all the tickets and invoices to be reimbursed by Pistes-Solidaires.

## ACCOMMODATION

Single bedrooms have been booked for each participant in the seminar (breakfast included).

The hotel is:

**LE MATISSE** (17, rue Mathieu Lalanne, 64000 Pau)

The location of the hotel is in the city center of Pau and really convenient to enjoy the city and move around.

## LOCATION OF THE SEMINAR

The place of the seminar is not decided yet. We will keep you informed about it. In any case, it will be easy to access from the hotel since you will stay next to the place where all the city transports pass by.

## MEALS

The expenses regarding the meals will be covered by Pistes-Solidaires. All the information about this and the logistics will be explained in details during the first day of the seminar.

# ABOUT THE SEMINAR

The "EU MOVERS" seminar will gather around 10 EU organisations involved in EU mobility projects targeting young people.

The seminar will be a space of 4 working days to share good practices and develop activities that will be useful in the daily work of each partner organisation.

## IN A FEW WORDS

The main objective of the EU Movers project is to promote education about Europe within the framework of non-formal mobility projects, whatever they may be (volunteering, youth exchanges, training).

In order to do so, it involves working directly with youth workers who implement these projects by creating a space for exchange, sharing and, above all, creation, in order to provide participants with "ready-to-use" tools to talk about Europe with young people.

### **General objectives :**

1. To contribute to the development of European citizenship among young people and youth workers
2. To raise awareness among youth workers of the importance of European citizenship for the future of the EU
3. To contribute to inter-organisational dynamics in the youth field in Europe

### **Specific objectives :**

1. To develop and capitalise on resources that can be used by youth workers in mobility projects
2. To enable an exchange of practice between youth workers in the EU in the field of education for Europe
3. To provide youth workers with " ready-to-use " tools and methods to talk about Europe

The project aims to bring real added value to youth work and to strengthen the impact that youth workers can have with young people in building the Future of the European Union.

# THE METHODS WE WILL USE

All the methods that will be used during the seminar will be based on non-formal education in order to ensure an active participation of all the persons who will attend the project.

As soon as the group is complete, all the participants will be contacted by Pistes-Solidaires in order to have more details about the activities and to share some contributions.

The "EU MOVERS" project is mainly based on a remix of the hackathon methodology so that real tools and activities are available and ready-to-use at the end of the seminar.

## ICING ON THE CAKE

On June 18th, Pistes-Solidaires will celebrate its 20th birthday! A specific event will be organized to close the seminar and other EU partners of the organisation will join.

It will be a great occasion to develop your professional network and work on new opportunities!

HAPPY BIRTHDAY
