

# PÕHJA-TALLINNA YOUTH CENTER

We are a **youthful and modern** youth center, where are provided a wide range of opportunities for recreation and/or developing activities. We have a spacious **building with many different rooms**, where youngsters (7-26 years) can easily find something for themselves.

We support youth initiative and the ideas that young people provide and follow the principles of **non-formal learning**.

# PÕHJA-TALLINNA YOUTH CENTER

**A volunteer should be an active, open-minded, and tolerant person, who has the courage to make contact with young people and plan and lead different activities. A good candidate should have some kind of hobby, which he/she can introduce to the young people.**

It would be an adding value if **the volunteer has a hobby or interest in extreme sports, technology and e-sports, sports, multimedia/graphical design or music and instruments and is ready for e-youthwork as well.**

**The volunteer should be able to lead language courses or other activities with his or her own initiative and help organize and run cultural programs for the youngsters. We wish that the volunteer would speak good English.**

**We are waiting for you** if you are interested in our activities,  
want to develop and promote them further!
